**REPORT OF SCHOOL BOARD.**

During the past year our schools have been in session 26 weeks, as they were the previous year. It is doubtful if a longer session would be expedient under the present conditions, even with sufficient money. School begins in the spring as early as advisable, considering the weather and condition of the roads, and runs until the first of July. To extend the spring term further into the hot weather would not in our opinion be for the best interests of the scholars. The fall term begins the last of August and runs into December. This term could hardly be continued longer with our present school houses, on account of the cold weather, and it would not be advisable to start it earlier.

We do not wish to be understood to advise against longer terms, if conditions are favorable; in fact we sincerely hope that in the not too distant future proper arrangements can be made for a longer school year.

We feel that we have had good teachers in all schools during the past year and that results have been very satisfactory. Music was taught during the spring term, and we regret to say that we are of the opinion that the scholars in general have

not benefited by the music lessons as they should. It is doubtful if it be thought advisable to have a special teacher in music again, or for the present anyway.

With the enlarged Carr school house we have been able to easily accommodate all scholars from the Carr, Beede and Greenleaf districts in the one school for both terms. This school was closed by the Board of Health nine days on account of diphtheria. The Cuxboro school was in session during the spring term, but was not run in the fall as the number of scholars hardly warranted it. Arrangements were made with Center Harbor to have these scholars attend the Hawkins school, consequently there were six schools in session during the spring term and only five during the fall term. This reduction in number of schools cut down expenses materially, as will be seen from the financial report.

We have been unable to do anything in regard to expert supervision in accordance with vote passed at last school meeting, on account of the fact that there were no nearby towns which voted favorably on this measure. The situation looks more favorable this year and we hope that it will be possible to form a union with some of our neighboring towns for supervisory purposes. If this can be done we feel that it will be a great benefit to our schools at a comparatively slight cost.

In accordance with vote passed the Carr school house was extended ten feet and new adjustable single desks and seats installed. The school room now presents a very attractive appearance and has accommodation for twenty-eight scholars, with room for at least two more desks.

We have also put modern desks and seats into the Elm and E. Holderness schools, making a marked improvement in these rooms.

The desks and seats used for these school houses were not new, but were in very good condition and of the same adjustable type as those bought for the Carr school house. If we could now replace the old bench seats in the Bridge and True houses, all our school houses would have comfortable seats

and desks. It would also be advisable to renew the floor in two or three of the school houses.
